**Subject:** Testimony on Bill #6050

Please vote against HB6050

As a resident of Suffield allowing tolls on the Connecticut border would only serve to increase traffic along the residential sections such as where I live off of Rt 190/159 from cars and trucks looking to avoid the tolls, as well as backing up traffic on 91 at the sites of the toll booths making the roads more dangerous. It would only serve to raise prices on commodities as the trucking industry would then pass along those increased costs to us consumers.
